PROFESSIONAL EXPERIENCE

Senior Web Developer | Sterrific | Feb 2025 - Present

- Protected a large-scale client site from migration downtime while improving speed by 35% by leading production deployment, Cloudflare DNS/SSL, SMTP setup and migration.
- Delivered and maintained 40+ production WordPress websites by building custom solutions with PHP, ACF, CPT, WooCommerce and front-end customisation from build through launch.
- Increased WooCommerce conversion rate by 25% by translating a custom Figma design into WordPress and implementing tailored payment, shipping and e-commerce functionality.
- Completed a 40+ website revamp programme within four months by coordinating concurrent development work and maintaining delivery quality across the portfolio.
- Reduced technical, security and search risk across client sites by resolving malware, plugin conflicts, redirects, schema, sitemaps, GSC issues, hosting faults and API integrations.

Web Developer | MacGad Technology Sdn Bhd | Apr 2024 - Jan 2025

- Improved website performance by 30% by leading WordPress optimisation focused on front-end performance, page structure and usability.
- Delivered production websites for Revor Mattress, MUVATA Auto Parts and Hyperack by customising WordPress builds with WPBakery, Elementor, HTML and CSS.
- Improved landing-page conversion readiness by combining custom HTML/CSS, on-page SEO and Google Ads tracking for a financing-sector client.

Assistant Chief Information Technology | Yayasan Pasir Gudang | Dec 2020 - Apr 2024

- Built and maintained the organisation's custom WordPress platform by developing with PHP, MySQL, HTML and CSS while supporting ongoing digital operations.
- Increased social media engagement by 50% by leading digital campaigns that expanded community reach and visibility.
- Improved organic search visibility by implementing on-page SEO across website content and technical page elements.

Junior Programmer | Nestle | Feb 2020 - Aug 2020

- Delivered the first paperless e-form system for two Nestle factories by developing a digital workflow with PowerApps, Power BI and SharePoint.
- Supported structured process improvement by applying DMAIC methodology and earning White Belt certification.

SELECTED PROJECT

Interactive 3D Drive-Thru Portfolio (2026) - Built a framework-free 3D portfolio with HTML, CSS, JavaScript and Three.js, including programmatic environments, keyboard/touch controls and GitHub Pages deployment.

EDUCATION

Bachelor's Degree, Mathematics and Computer Science | Universiti Malaysia Sabah | Sep 2016 - Nov 2020 | CGPA: 3.5
